# the story of **MOMENTS**

Once upon a time, there was a little gem called Goldiana, a quiet café nestled in the heart of Mulia, quietly twinkling in the shadow of a beloved Chinese food giant. The café, with its warm wooden interiors & rich local flavors was a sanctuary for those seeking comfort food & moments of solace.

However, as the seasons changed, so did the trends. Goldiana realized there were more beautiful cafes opening and was feeling behind. At first, change seemed daunting but Goldiana knew that it was time to keep with the times. In that moment of uncertainty, she stood firm & embraced the courage to transform, all while always cherishing her roots.

She aspired to redefine herself & wanted to be a place where moments turn into memories. Suddenly this epiphany became her answer.

*She decided to call herself "Moments". A place where connections are made, ideas are exchanged, achievements are celebrated and tummies are filled.*

The transformation wasn't just in the name—it was in the experience too. The menu was reimaged, introducing exciting new flavors while keeping classics that regulars were fond of. Appearance wise: out with the gold, in with the blue to stick out on your FYP & looks good in pictures too.

As her new journey begins, Moments is excited to be a place where people can create their own moments over yummy bites & refreshing drinks. She had always believed that life isn't about how fast we move but the moments we hold, each one fleeting yet precious.

*And so, with every visit, she hopes you'll be reminded to slow down, savor the present, and embrace each moment as it comes.*
